LAB & SCIENCE

Label, code, and organize every vessel and sample.

Working benches consume labeling continuously, and labs standardize on systems — which makes the reorder loyal. RPI's lab line covers writable color-code tape, chemical safety, and sample organization for industrial, academic, and clinical labs.

WHAT WE MAKE FOR LAB & SCIENCE

- **Col-R-Tone Lab Tape**
  33-color writable tape — label and seal glassware in one wrap.
- **HMIG Chemical Safety Labels**
  OSHA right-to-know four-color blocks, preprinted and write-in.
- **Bag Edge Grippers**
  Turn any sample pouch into a ring-binder page.
- **See-Thru Polyester Labels**
  Durable protection plus see-through color coding.
- **Color-Coding Dots**
  Permanent and removable dots for racks, vials, and shelves.
- **Hazmat & D.O.T. Labels**
  Transport-hazard classes for shipping lab chemicals.

ASK FOR A LAB SAMPLE PACK

We assemble a bench kit — tape, chemical safety, and organization — matched to your lab's workflow.
